

Printable Bunny Rabbit Craft Materials We Used:

Paint – Brown (4 shades), Black, Pink
Cardstock – 3 pieces (2 to print on)
Scissors
Glue
Patience
Paintbrushes

You will have 4 shades of brown. Of course, you can do less, but the different shades give it more depth and separates the different parts so that it's not just one solid brown blob with cute eyes, lol.

Paint Guide:

Lightest Brown: Bottoms of cheeks (bigger ovals), Nose "puffs", Tail
Medium Brown: Tops of cheeks, heads, ears (bottom layer)
Medium-Dark Brown: Body
Darkest Brown: Eye color (2nd layer)
Pink: Ears (top layer) and Nose
Black: Eyes (third layer, the pupil)

Honestly, it's not THAT complicated. Just refer back to the bunny picture above and have at it. You don't even have to do the same exact colors – it's just easier to explain with the colors I used. Directions are the same as every other printable – paint, allow to dry, cut out, and glue down. Do a "dry" assemble before gluing down on this one to see the order in which you should glue. I made a little graphic to help – again, not THAT hard, but it's there if you need it:

bunny2.pdf

Eye

White - 1st layer
Brown - 2nd layer
Black - 3rd layer
White Highlight

Lighter Color Cheeks (slightly bigger ovals) on Bottom
Darker color on top

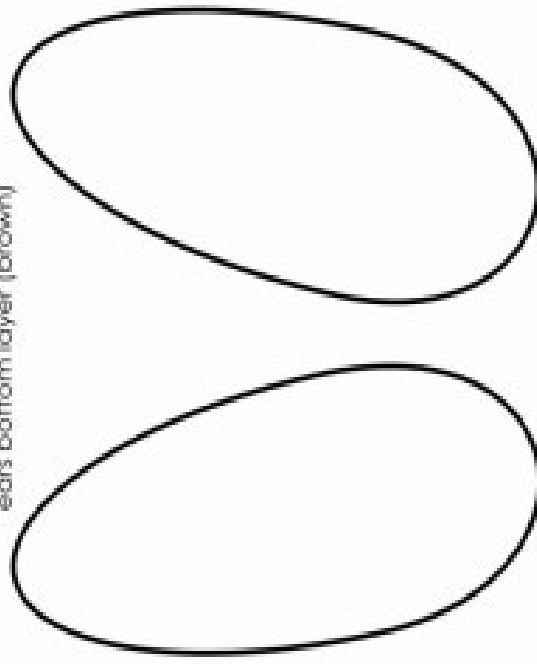

Nose, Puffs, & Teeth

Glue Teeth down on top of cheeks
"Puffs" slightly overlap teeth
Nose on top, centered.
